THE SMILE SYLLABUS OBJECTIVE

Dr. Jonathan Abenaim, DMD has made it his mission to revolutionize the dental profession. Dr. Abenaim has traveled the country sharing his strategies on how to improve the relationship between corporate dental professionals and dental teams, as well as push dental companies to care about their products and their mission. Dr. Abenaim's goal is for each person to leave the course or presentation feeling motivated to better their career and the dental profession as a whole.

THE SMILE SYLLABUS APPROACH

The Smile Syllabus Training Institute offers a unique experience designed to further your education, knowledge, and involvement in the profession. Feel that spark you felt when you started your career. Be reminded how exciting, dynamic, and engaging the dental profession is today.

- Learn from pioneers in the field of dentistry. Take your career to the next level.
- We don't believe in maintaining the status quo. You'll learn how to break down walls to uncover opportunity and potential.
- Connect with professionals who are advocates for dentists. Your best interests are always considered in shaping our courses.

THE FUTURE OF DENTISTRY

Technology has transformed dentistry. Is your practice tapping into the full potential of dental technology? Dr. Abenaim offers training and presentations in the following areas:

- Digital Dentistry
- 3D Printing
- Digital Workflows
- Milling
- Full Arch Printing
- Digital Design
- Choosing the Right Lab, Printer, and Scanner

THE TRUST FACTOR

As a dental practice owner, you are responsible for ensuring patients receive the care they need while maintaining a successful business. Sometimes, a smooth operation is distant ideal. Dr. Abenaim uncovers the secrets to success and identifies areas of opportunity to keep you moving forward. Dr. Abenaim draws on his own experience. After purchasing a practice, he lost 30 percent of his patients within six months, despite the high quality care provided by his team. He made a realization that success is dependent on team unity, and a transformation requires cultivating trust.

If you are looking to increase production, build trust among your team and your patients, and learn how to nurture a forward-thinking culture, The Trust Factor is for you. You will learn how to achieve a greater degree of fulfillment from your practice by creating an environment geared towards success.

DR. ABENAIM'S PHILOSOPHY

Learning from experience is the best way to immerse yourself in today's fast-paced world of digital dentistry. The Smile Syllabus Training Institute gives you an opportunity to connect with professionals that can share what works based on real experience. You can choose to ignore the advancements in dentistry, or you can embrace change, educate yourself and your team, and learn how to improve practice efficiency, patient comfort, and case acceptance.

TWO DAY WORKSHOP

What if you heard that a two-day workshop could bring years' worth of positive change for your practice? The two-day workshop is perfect for dentists and dental teams who do full mouth reconstructions. Digital dentistry will transform your approach to these cases. Embrace a renewed outlook on your career, and implement changes that promote growth, success, and efficiency.

COURSE AGENDA

Day 1

- Digital Smile Design and Digital Dentures
- Skip the TIBASE: Can it be done?
- Review 3 final Cases to discuss full workflows

TESTIMONIALS

Our success is a reflection of your success.

It really kind of sparked our interest because we have a lot of digital equipment in our office. We're trying to stay on the edge of what's going on in dentistry. We see the value of it.
– Jonathan H.

It's nice being able to see it from what we're doing clinically, and then what goes through to the lab so we can have a better viewpoint of what we need to capture.
– Audrey C.

Awesome course. Honest course. All the different software, and trying to figure out how this all comes together is very important.
– Jason C.

ABOUT DR. ABENAIM

Dr. Jonathan Abenaim, DMD is the founder of The Smile Syllabus Training Institute. With more than a decade of experience, Dr. Abenaim loves sharing his knowledge and strategies to advance and transform dentistry.

Dr. Abenaim graduated from the University of Pennsylvania School of Dental Medicine with honors in Prosthetic Dentistry, Endodontics, and Pain Management. He was honored with the E. Howell Smith Award in Prosthetic Dentistry, and holds Fellowship and Diplomat status with The International Congress of Oral Implantologists.

He is also the author of the book *The Trust Factor*, a valuable resource for dentists looking to achieve a balance between managing superior patient care standards, while maintaining a profitable and successful business.

Dr. Abenaim lives in New Jersey with his wife and four children. He has a private practice in Hawthorne, NJ.
